Parke Piano Strings & Materials is a family owned and run business, started in Australia over 50 years ago by my father, Len Parke, whose family had been involved in the piano industry in England. Dad built the machines that I, Lou, still use today to manufacture piano strings. Dad handed the business down to myself and my wife Alisa, and we have been running Parke Piano Strings & Materials since 1981.

The piano strings are manufactured using traditional methods and to the highest standards.

We make every effort to provide the industry with efficiency and integrity and look forward to your custom.

Lou and Alisa Parke

1 TERMS & CONDITIONS

Our aim is to provide the Piano Industry with a complete and reliable service for the supply of bass strings and piano materials.

TURNAROUND

We aim to ship materials and odd strings within 2 working days of receipt of order. Sets and partial sets of strings will normally take a little longer, but we will always try to meet any delivery requirements you may have.

PAYMENT & CREDIT TERMS

Payment may be made by Cheque, Money Order or Credit Card (VISA or MASTERCARD). Credit terms for regular account customers are strictly 30 days from date of invoice. We regret that we cannot afford to carry accounts which regularly exceed 30 days. Non-account customers will be asked to pay with a credit card at time of purchase.

MINIMUM ORDERS

Although we have not set a specific minimum order amount, we ask customers to appreciate that orders for less than \$25 or \$30 worth of goods are un-economical for us to process.

SHIPPING & BACKORDERS

Unless otherwise requested, goods will be sent Australia Post. Items that we cannot supply immediately will not be back-ordered unless requested, but we will attempt to notify you when we are in a position to supply these items.

PRICING

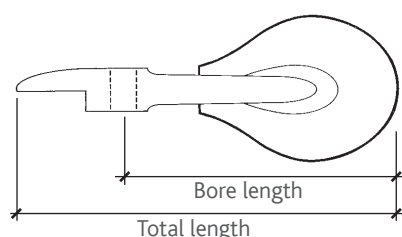

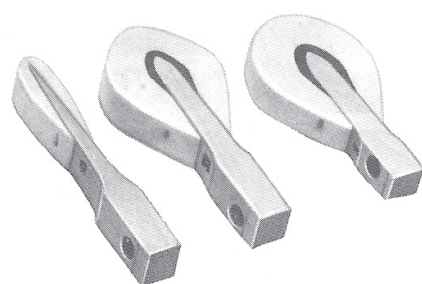

Please note that, as we are constantly importing materials, our catalogue prices are subject to change without notice. We will attempt to advise you in advance if the price of any item is to change significantly. For current prices, please refer to our price list, available on our website.

CUSTOMER FEEDBACK

We are constantly trying to tailor our business to provide our customers with a better service. We would appreciate your help in letting us know how we can do this. Please don't hesitate to contact us if there are items you would like us to stock or if there is any other way in which we can assist you.
